

Harmony

Sunlight glistens down on us
As we focus on our differences
Culture, country, religion, and more
This is what we're looking for
Justice, rights and things that might
Change the way we see each others life
So together we walk and stride with glee
Showing a road to harmony
Wear your orange, wear it with pride
Show you're not being swept with the tide
Of hate, evil, abuse and more
Don't succumb to these ... open a door.
